CAPABILITIES STATEMENT

DAS Federal, LLC, established in 2016, is an SBA certified 8(a), Small Disadvantaged Business. We are a premier small business in Washington DC Metro Area that specializes in Proven and Emerging Technologies such as Digital Transformation, DevSecOps, Automation, Data Analytics, Low-Code / No-Code, Artificial Intelligence (AI), Machine Learning (ML), Large Language Models (LLM), Program Management, and Process Improvement & Workflow Optimization.

We partner with government agencies to drive innovation and optimize mission delivery.

CORE COMPETENCIES

Artificial Intelligence (AI), Machine Learning (ML) & Large Language Models (LLM)

We evaluate your business processes and expertly suggest best AI use-cases as well as help select and implement LLM models like ChatGPT, Claude, and LLAMA to fit your unique needs. From chatbots to sentiment analysis, we deliver precision AI-driven tasks and modernizations.

Process Improvement, Program Management & Workflow Optimization

We specialize in program management and workflow optimization. We pair industry insight with innovative methods, such as using AI and VR/AR for impactful learning to deliver future-ready solutions and training.

Digital Transformation, DevSecOps & Automation

We drive digital transformation with top-tier cloud partnerships, including AWS and Azure. We prioritize security throughout software development. We automate for scalable workloads and streamlined processes.

Data Analytics

We transform diverse data into timely, actionable insights using scalable frameworks and dynamic dashboards for mission success.

Low-Code/No-Code

We are a vendor-neutral Low-Code/No-Code consultancy, proficient in platforms like ServiceNow, Salesforce, Appian, Pega, and Oracle Apex.

CASE STUDIES

FDA OIMT – IT Automation Operations and Maintenance of Infrastructure
DAS Federal is accelerating the IT Automation journey for the FDA OIMT. Our services include **Business Process Automation, Low-Code/No-Code development, and Orchestration**. We provide enterprise-wide automation with leading technologies.

FDA – ODT Acquisition Strategies and Partnership Division (ASAP)
DAS Federal manages the eSTARS program, which is an enterprise-wide application used across OIMT. The functionality developed with **Low-Code / No-Code** technologies include a financial reporting module, access controls, and new/enhanced dashboards and reports.

FDA Division of Performance Management (DPM) Data Analytics Contract
DAS Federal supports DPM with the collection, analysis and reporting/tracking of performance data for the programs it manages, utilizing tools such as **Tableau**.

Department of Health and Human Services (DHHS)
Federal is providing professional development services to develop and enhance the ASPR SNS AND ASPR H-CORE **ServiceNow applications** and capabilities for implementation including Incident Management, Change Management, Configuration Management, Reporting, Knowledge Management, Testing, and Agile Transformation.

General Services Administration (GSA)
DAS Federal provides Operations & Maintenance (O&M) and Development, Modernization & Enhancement (DM&E) support for GSA's **RPA UiPath** enterprise platform.

National Institutes of Health (NIH), National Cancer Institute (NCI)
DAS Federal offers Program Management and Electronic Records Management Services at NIH's CTEP PIO. We manage contract tasks, meet program objectives, and **ensure quality within budget and schedule**. We also support PIO by coordinating clinical trial document review for **oncology research**, facilitating **efficient protocol development**.

Department of Labor (DOL)
DAS Federal enhancing the Veterans' Employment and Training Service Transition Assistance Program. We are enhancing and maintaining the VETS TEN system - a **crucial Salesforce** platform helping veterans, and their spouses navigate employment opportunities.
